## Dealer Comments

This superb IS300 F Sport presents beautifully in White Nova with White sports interior leather trim. The Lexus IS300 is an incredibly well balanced sports sedan, with active suspension damping to keep the car connected to the road in challenging driving conditions. With a superb 180kW, 2.0ltr, 4 cylinder turbo charged engine, the Lexus IS has ample power on tap. These cars are rare, and this particular example has been sold and maintained by us since new. It is a 1 owner car, and presents beautifully in every way. The road presence of the Series 4 Lexus IS is undeniably beautiful, and with so few of these cars on the road, this car is a true headturner, and sure to hold it's value for many years to come. With the full suite of Lexus Safety System + features, including radar cruise control, lane trace assist, speed sign recognition and adaptive variable suspension. Add to this the Mark Levinson audio system, adaptive high beam, satellite navigation and ventilated front seats, this car combines the technology and Luxury features with the essence of a true sports car. Don't miss out on this one, as you'll be hard pressed to find another one that meets these specifications. We transport Australia-wide, can offer finance through Lexus Financial Services, and we can also trade your existing car through our dealer network anywhere in Australia.

\* If the price does not contain the notation that it is "Drive Away No More to Pay", the price may not include additional costs, such as stamp duty and other government charges. Please confirm price and features with the seller of the vehicle.
