The 2023 GTX 170 features 170 hp, thanks to the Rotax 1630 engine. The fuel tank has been bumped up to 70L for improved economy and range.

TOURING FEATURES

Spend all day touring with these standard features: Tilt Steering, Cruise Control and Slow Mode and a Boarding Ladder for pure comfort.

LARGE SWIM PLATFORM

The first watercraft to hang out on the water with the largest swim platform in the industry. Flat, stable and comfortable, it is ideal for re-boarding, lounging, and prepping for tow sports. Create more space by removing the rear seat.

ST3 HULL

Whether at high speeds pounding rough offshore waters, at rest hanging out in a cove or your simply boarding from the side, the wider hull offers industry leading stability thanks to a lower center of gravity and improved hull design.

DIRECT ACCESS FRONT STORAGE

All your gear is now within arms reach. The industry first direct-access front storage opens by simply raising the handlebar assembly. No standing required. It's the smartest water-resistant storage we've ever built into a watercraft.

LINQ ATTACHMENT SYSTEM

Exclusive quick-attach system on the swim platform allows for easy installation of storage accessories.

* If the price does not contain the notation that it is "Drive Away No More to Pay", the price may not include additional costs, such as stamp duty and other government charges. Please confirm price and features with the seller of the vehicle.

Features and Specifications
