Cargo Box Capacity: 454 KG

Towing Capacity: 1134 KG

Total Payload Capacity: 680 KG

Fuel Capacity: 40L

### DYNAMIC POWER STEERING

Dynamic Power Steering (DPS) is tuned for utility while returning renowned Can-Am responsiveness for recreational riding. DPS improves steering feel in slow-speed working situations and in more technical terrain. It's also designed to offer less assistance at high speeds and more assistance at low speeds.

Reinforced heavy-duty HSLA steel chassis

The HD9 and HD10 Defenders can pull at the top of their class with a towing capacity of 2,500-lbs (1,134 kg). A reinforced, automotive-like high-strength, low-alloy (HSLA) grade steel chassis is purpose-built to handle the strain of heavy-duty jobs. From surviving Defender Challenge test drives to our brutal Utility Test Cycle, it's clear we've built it tough for every situation you'll face.

### TTA REAR SUSPENSION

The Defender HD10 XUS's heavy-duty Torsional Trailing A-arms (TTA) was designed specifically for a utility and recreational usage, offers a full 11-in. (25.4 cm) of travel to provide a smooth ride whatever the terrain. Its architecture offers an optimal comfort and drivability in all conditions thanks to no camber.

Plus loads of other features

- VERSA PRO flip up bench seats, allowing for storage in the cab
- Under seat storage, removable glove box
- Analog and Digital dash with enclosed storage
- Premium XPS Trail Force tyres and 14 inch cast-aluminium wheels
- And more!
