Dealer Comments

First ever Bentley 4 1/2 Litre offered on Carsales and quite the opportunity to acquire a very desirable car. Just

662 were manufactured by the original Bentley company and it is thought that around 450 of these have survived. Every one is now a highly sought-after classic as the legend of the Bentley Boys and their exploits only gets stronger. The quintessential version is the replica Vanden Plas tourer in British Racing Green with Green trim and that's just what we have here.

Sold new in England and originally fitted with a Gurney Nutting Weymann-style fabric saloon, by WWII it had been converted into an ambulance, according to our reference books. It was evidently neglected in the post-War years and, as a project, it was acquired in the early 1980s by Australia's then pre-eminent Bentley restorer and imported here. A meticulous restoration ensued and a new owner found, who remarkably kept the car until his recent passing. For some thirty-five years this Bentley has been active in BDC events and, following a recent service by a marque specialist, is ready to tackle new adventures.

Note that the odometer reads in miles and has, we are pretty confident, been around the clock at least once.
