Rotax Engine Model: 1630 ACE

Horsepower: 230

Stroke: 4

Air Intake: Supercharged

Intelligent Brake Reverse (iBR): Yes

Variable Trim System (VTS): Yes

With the largest swim platform in the industry the GTX give you the most versatile on board experience ever.

Sea doo exclusive Ergolock seating system:

The narrow seat places your knees closer together in a natural riding position, while the stepped seat design provides more lateral support and stability for you and your passengers. Plus, the removable rear seat gives you even more space for on board activities.

Large swim platform

Built for hanging out on the water with the largest swim platform in the industry. Flat, stable and comfortable, it's ideal for boarding, lounging, and prepping for tow sports. Create even more space by removing the rear seat.

Stable and predictable hull

Whether you're at high speeds pounding rough offshore waters, at rest hanging out in a cove or you're simply boarding from the side, the wider hull offers industry leading stability thanks to a lower center of gravity and improved hull design.

Direct access front storage

All your gear is now within arm's reach. The industry's first direct-access front storage opens by simply raising the handlebar assembly. No standing required. It's the smartest water-resistant storage we've ever built into a watercraft, offering room for your next adventure.

\* If the price does not contain the notation that it is "Drive Away No More to Pay", the price may not include additional costs, such as stamp duty and other government charges. Please confirm price and features with the seller of the vehicle.
