Dealer Comments

Here we have a Tidy GTX155.

These have been very popular over the years due to there stable yet nimble handling and ability to take on some chop.

Totally standard other than a Premium Garmin Fish Finder installed.

With only 103 hours on the clock this is still a very low hour ski. These engines are good for over 1000 hours before any major maintenance is required. Just take a look on google at the life of a sea-doo ski in Florida, not uncommon for them to do 500 Hours per year in 100% salt water!

New battery at the start of the year.

Services all up to date.

Will need a service spring 24, or 150 Hours if you want to ride this beauty right into the winter!

Awesome buying at less than the Price of a new spark for a ski that can tow, fish, tour. A real do it all model that fuel efficient to boot!

We can arrange shipping anywhere.

Its ready to go now!

* If the price does not contain the notation that it is "Drive Away No More to Pay", the price may not include additional costs, such as stamp duty and other government charges. Please confirm price and features with the seller of the vehicle.
